@Home Realty Holland

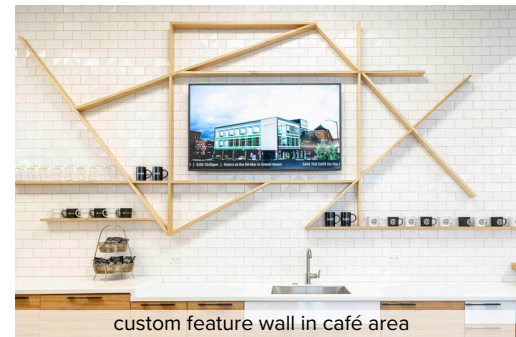

THE CHALLENGE

@Home Realty partnered with Custer in 2019 to bring the company's fun, youthful culture to the forefront of their new Holland location.

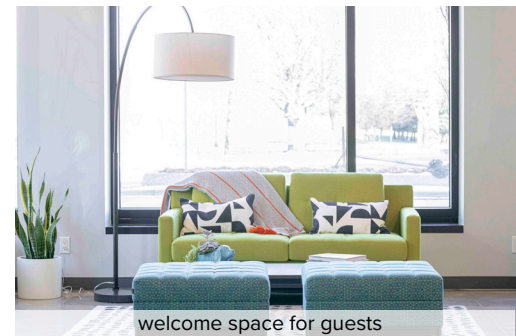

The West Michigan-based real estate agency sought a welcoming touch-down space for their Holland-based agents and an inviting environment for hosting clients.

The space needed to be able to support a multitude of user experiences in a high-end but approachable environment, while incorporating amenities for entertaining and wowing guests.

Custer provided thoughtful, custom-designed millwork, furniture and all-inclusive interior design solutions that pushed the space to the next level and created dramatic and unexpected experiences with attention to detail.

touch-down

THE SOLUTION

Together with Renegade, Custer provided all-inclusive design, furniture, technology, and custom solutions for this brand new 15,000 square foot building in downtown Holland.

In Custer's search for a lakeshore presence, we were able to partner with @Home Realty to create a space on the first floor for our own lakeshore-based team.

The @Home Realty team's desire to try new, innovative solutions allowed Custer's design team flexibility in how we approached thoughtful design for this project.

'From the first meeting Jody was willing to think outside the box like we do. Working with Renegade was phenomenal.'
