

PROGRAM MANAGEMENT

We're the Renovation Experts So You Don't Have to Be.

Program Management supports customers who may not have someone on staff with the capacity or knowledge of how to manage a renovation project.

Our team of Program Management experts are ready to act as advocates on your behalf—efficiently guiding you through the planning, design, construction, and occupancy phases to streamline the complexity of your project. Every project has its own unique challenges and requirements. We can provide customized support to suit your needs—no matter the size or scale.

Below are just some of the services we can provide:

- 1 Documentation of project goals and scope of work
- 2 Introductions to trusted vendors/contractors
- 3 Preliminary Site walkthroughs
- 4 Solicit contractor bids on behalf of client, evaluate proposals, and make recommendations
- 5 Milestone management
- 6 Meeting management/reporting
- 7 Budget tracking and assistance with value engineering

BENEFITS

- Expertise on process and implementation
- Guidance throughout project
- Non biased advocacy
- Ensures project goals are met
- Alignment between team members
